

XT32

IDEAL FOR JUNIORS AND LIGHT RENTAL EXPERIENCES

THE SMART VERSION IS ALSO
AVAILABLE WITH STANDARD
BODYWORK.

The Parolin XT32 is a state-of-the-art vehicle, which presents an extreme heavy-duty rental kart capability, while being conceived to perform. Tubes are cut and welded using laser technology machines and shaped with CNC fully automatic machines. Easy-access bolts allow for the removal of the axle and the rear brake, adding to the vehicle's ease of maintenance and repair. The

clever rear engine location grants a comfortable drive position. The outside polymer bumpers, especially in indoor tracks, allow the vehicles to slide one against the other in case of collision. Bodywork, rear axle guards, and protective covers over the rotating parts are essential safety components. The roll bar and safety belts can be installed to give the driver extra protection.

STANDARD

Tube Diameter	32x2 mm Cr-Mo
Pitch	1030 mm
Total Length	1800 mm
Total Width	1300 mm
Axle	1.0 Kw (1.3 HP)
